## WORK EXPERIENCE

**May '16 – Present**

### Senior Full Stack Developer
**Kickfurther**

Responsible for a wide-array of tasks from making sure the servers are humming along smoothly, to overseeing zero-downtime deploys to leading new features and redesigns.

**May '12 – May '16**

### Senior Web / Android Developer
**Hardin Design & Development**

Lead developer on WordPress, Laravel, Angular and Android projects. I installed and maintain a custom GitLab server for the company's internal use.

**Sept '08 – May '12**

### Web Administrator / Sports Photographer
**UW-Madison Athletic Department**

During my time at the University of Wisconsin-Madison Athletic Department I handled daily updates which involved changing ads and promotions, was in charge of designing new templates for uwbadgers.com and sub-sites. I was in-charge of gameday photography, helped manage the online photo gallery and promoted the photos via social media outlets to reach the broadest fan base possible.

## EDUCATION

**2007–2011**

### Bachelor's of Science
**University of Wisconsin-Madison**

## SUMMARY

❝ My passion is in creating web applications that are device independent (responsive), visually appealing, and help better both the creators' and consumers' lives.
